

How to put together your Hallowzine Zine

1. Print the PDF double-sided, flipping on the long edge.

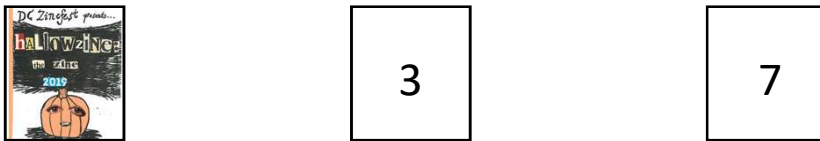

2. Lay out the pages as they are below. Page numbers are at the very bottom and very top of each page.

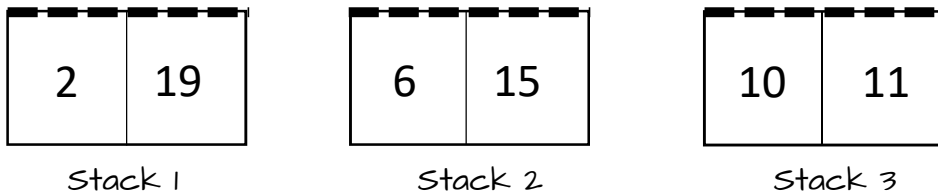

3. Fold the pages "hamburger style", along the dotted line. You should get something like this.

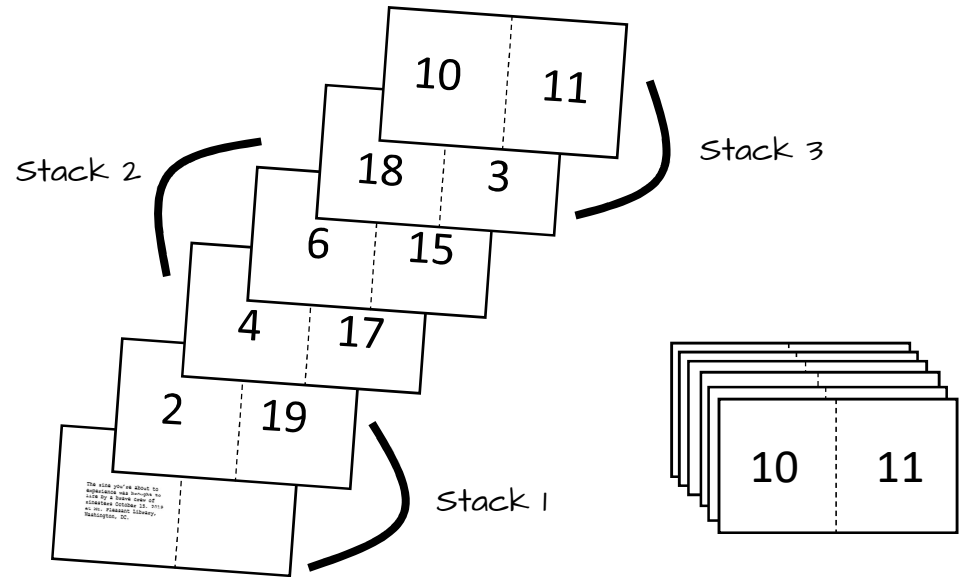

4. Fold the page in half "hotdog style" along the dotted line, like closing a book. Make a good crease.

5. Open the paper back up. Cut horizontally along the bold, dotted line. Now you will have 3 stacks of 2 pages.

6. Stack the stacks!

7. Flip the stack over, so you see the front and back covers. Staple twice in the middle along the spine (where you see the black rectangles).

8. Fold the whole thing together like a book. You have now assembled your Hallowzine Zine.
